MODIFY OFFER TO SELL SURPLUS FOOD

War Department To Sell All Surplus Subsistence Commodities

TEN DAYS CREDIT

Purchases May Be Made by Municipalities, States or Counties Minimum to be Sold is 30,000 Pounds.

The War Department authorizes publication of the following statement from the office of the Director of Sales:

The Director of Sales announces that the offer to sell surplus food supplies to municipalities has been modified to include not only canned and cured meats and canned vegetables but all surplus subsistence commodities.

It has developed that charter restrictions prevent some of the cities of the country from purchasing in the manner prescribed by the War Department in its original offer of the surplus subsistence to municipalities. If a municipality of other local government owing to its charter or other laws is unable to buy and sell the War Department will ship to it upon consignment subsistence stores in not less than case or cartoon lots the goods to be paid for, or returned within thirty days from the date of receipt. Shipments of this character are to be made only when the mayor of the city or the head of the local government either acts as the government's agent and supervises the distribution of the food, or appoints someone to so act.

Subsistence stores will be sold to civic bodies, groups of citizens or individuals who present credentials from a local government certifying that they are authorized to distribute food under the supervisin of the local government. Shipments will be made to such group or groups of individual on the same terms as those offered to municipalities.

The offer made by the War Department to sell surplus subsistence stores to municipal, state and county institutions is still in effect. Purchases made by the municipalities, states or counties for public institutions will be sold, as in the past on a ten day extension of credit.

To make these surplus foodstuffs more readily available to the municipalities, the War Department has now reduced the minium quantity in which such supplies are offered from a carload lot of 30,000 pounds to case or carton lots.

The prices at which canned and cured meats and canned vegetables are now offered to the Municipalities are as follows:

Meats—Beef, Corned, No. 1 cans $3.60 per dozen; beef, corned, No. 2 cans, $6.96 per dozen; beef, corned, No. 6-lb. cans, $24.00 per dozen; beef, roast, No. 1 cans, $3.48 per dozen; beef roast, 1-lb. cans, $4.92 per dozen; beef roast, 2-lb cans $7.92 per dozen; beef, roast, 6-lb cans $26.40 per dozen; hash, corned beef, 1-lb cans, $2.76 per dozen; hash, corned beef, 2-lb cans $4.80 per dozen; bacon in crates, 34c per lb.; bacon in 12-lb. tins, 36c per lb.

Vegetables—beans, baked, No. 1 cans, 89c per dozen; beans, baked No. 2 cans $1.62 per dozen; beans, baked No. 3 cans $2.14 per dozen; beans stringless, No. 2 $1.34 per dozen; beans stringless, No. 10, $5.76 per dozen; corn, No. 2 $1.44 per dozen; peas, No. 2 $1.36 per dozen; Tomatoes, No. 2 $1.28 per dozen; tomatoes No. 2 1-2 $1.60 per dozen; tomatoes No. 3 $1.80 per dozen; tomatoes No. 10 $5.34 per dozen; pumpkin No. 2 74c per dozen; pumpkin, No. 3 $1.13 per dozen; pumpkin No 10 $2.85 per dozen, squash No. 2 72c per dozen.

The prices quoted to municipalities are f. o. b., storage points. These prices are the basic prices used by the War Department in quoting the offering of these commodities for sale through the Parcels Post Service. Municipalities, where overhead expenses are incurred in making distribution of the food, must add to the price quoted by the Government a sum sufficient to cover such expenses.

The War Department is now determining the prices at which other surplus subsistence commodities will be offered to municipalities. These prices will be announced as soon as they shall have been established.

Municipalities desiring to take advantage of the War Department's offer are requested to negotiate directly with the Surplus Property Officer at the nearest of the Zone Supply Offices which are located in the following cities.

Boston New York, Baltimore, Newport, News, Atlanta, Chicago, St. Louis New Orleans, Fort Sam Houston, El Paso, Omaha, and San Francisco. These surplus property officers have been instructed by the War Department to make sales to municipalities under the conditions prescribed by the War Department and are supplied with complete information concerning the commodities available in each of the zones and the actual prices at which they may be disposed of.

BUTTER AND COFFEE STOCKS ARE SEIZED

Grain and Provision Prices Tumble After Government Raids

REAL PUNCH IN RAIDS

Attorney General Palmer Will Prosecute Every Dealer Shown to be a Food Profiteer.

Washington, Aug. 15.—Indications of the real punch behind the Government's campaign to reduce the high cost of living are given in unmistakable fashion in many cities.

While Attorney General Palmer was telling the Senate Agriculture Committee that he intended to prosecute every dealer guilty of selling at higher prices than those listed by the fair price committees of each county, word came from Chicago, St. Louis, and Birmingham of seizures of great quantities of foodstuffs by Federal officials, who recently were instructed to proceed under the food control act to stop hoarding. In Chicago 1282 tubs of butter worth $50,000 was seized, in St. Louis, 284,180 pounds of coffee, which has been showing rapid advances in prices, and in Birmingham one hundred barrels of sugar.

Chicago, Aug. 15.—One thousand two hundred and eighty-two tubs of butter valued at $50,000, were seized here yesterday on libel warrants issued by the United States District Attorney's office in the government's war on the high cost of living. It was the first step taken by the local Federal authorities in their campaign against alleged hoarders.

Part of the butter seized was a consignment en route from St. Paul to Pittsburgh, consisting of three hundred tubs which was taken from freight cars. The names of the owners of this consignment were not disclosed. The rest of the butter seized was taken from Chicago cold storage warehouses, most of which was said to be owned by C. H. Weaver & Company, to Chicago.

St. Louis, Mo., Aug. 15.—Federal officials here yesterday seized 284,180 pounds of coffee held in storage in a warehouse on a libel information issued by the United States District Attorney. It was alleged in the information that the coffee was held for J. Aron & Company, of New York.

Birmingham, Ala., Aug. 15.—Under orders from Federal Judge Grubb United States marshals yesterday seized 100 barrels of sugar in the warehouse of the Heber Candy Company here.

OPPOSITION TO GOVERNOR'S PLAN

Good Roads Association Is Waging Fight to Get 15-Cent Tax

MUST FACE THE FACTS

President of the Good Roads Association Declares Many Costs Cannot Be Met From Federal Aid

Developing a determined fight between the Governor and the Virginia Good Roads Association, the question of how great a tax the General Assembly shall levy on general property for highway purposes is rapidly forging to the front as the real issue of the special session.

The situation was precipitated when the chief executive appeared on Wednesday before the two houses in joint session, and declared unequivocally for a levy of 1 mill, as opposed to the 1 1-2-mill tax already agreed upon by the legislative and executive committees of the association.

The fact that the Governor has had prepared through Charles H. Morrette of the Legislative Reference Bureau a measure designed to carry into effect his idea of the amount of the levy accentuated a difference which already had become clearly apparent.

The lines became tightly drawn however, when the Good Roads Association made known yesterday its purpose through S. L. Lupton the president that it is not receding from the original plan to ask the Legislature to increase the existing road levy to 15 cents, or 1 1-2 mills.

"The Governor seems to lose sight of the fact," Mr. Lupton said, "that for $1,000,000 of Federal aid the State ,in order to use it, must set aside $1,250,000. There are many very necessary expenditures in road building that cannot be met with money received from the national government.

"For instance, the cost of engineering, which is a considerable one, will be paid solely from the State funds Likewise, maintenance of the entire highway department is the particular burden of Virginia, as is paying the costs of damages incident to a road program. Not one cent of the Federal aid can be used for a purpose other than strict highway construction.

'Another point I would make, in taking issue with the Governor, is that he is basing calculations for revenue upon taxable values which do not yet exist. He proceeds on the assumption that a reassignment will bring about a greater amount upon which to levy. I think that is a dangerous procedure. He bases his figures also upon an assumption that the revenue derived from automobiles will climb upward each year. That may be true. But I believe it is much better to proceed upon present conditions relative to property and automobiles."

WILL CONTROL LIVING PRICES

Congressmen Ordered Back By Monday, When Program Starts

TO FIGHT TO FINISH

Palmer Says Department Will Prosecute When Fair Price List Is Exceeded.

Washington, Aug. 15.—President Wilson's program of legislation to control living prices will get under way in the House next Monday. In anticipation of this all absent members were notified last night by telegraph to be back in Washington by the first of the week. The telegrams were dispatched by Majority Leader Mondell and Minority Leader Clark following a conference between the two.

The first bill to be taken up Mr Mondell announced will be that extending the provisions of the Food Control act to include wearing apparel and containers in which food, feeds and fertilizer are sold, under the price regulating power of the Government, and providing a fine of $5,000 or two years' imprisonment, or both, for profiteers.

Assurance was given by Mr. Mondell that the measure would be passed promptly by the House. The House Agriculture Committee which has been considering this measure notified the majority leader yesterday that it would be ready to report the bill Monday and an effort will be made to have it taken up on the floor at once by unanimous consent.

"Meanwhile" declared Mr. Mondell the House Judiciary Committee will have under consideration the more comprehensive proposals of the President that certain of the large powers in the Food Control act which will expire with the formal ratification of peace be continued in effect as part of the permanent peace-time law. These proposals have to do with the future rather than with the immediate needs of the cost of living problem, and consequently hearings will be held and more extended consideration given to them. Whether the Judiciary Committee will report on these extensions favorably cannot now be stated, as there is some wide difference of opinion among its members as to the propriety of some of the propositions included in the President's message on this subject."

Promoters of Playgrounds Assert More Such Places Are Needed in Alexandria For Kiddies.

Many children are daily enjoying the games and other amusements provided at the playgrounds at Lee School building. For the accommodations of the parents and others who desire to see the children enjoy the games benches have ben provided.

Particularly interesting to the smaller children are sand boxes, seesaws, ring games, and stores, volley ball, basketball and baseball attract the larger chidren. A sewing class also has been organized among the young girls and it is predicted by those in charge of the grounds that by the close of the season many useful articles will have been made by the girls.

Despite the fact that the playground is limited in area it provides wholesome amusement for the little ones who patronize it.

Those in charge of the playgrounds assert that a city the size of Alexandria should maintain at least four or five playgrounds of this size in order to provide proper amusement for the 5,200 children estimated, who pobably would attend. An invitation is extended all citizens to come to the playgrounds and inspect the method of operating.

CONTINUE BOILING WATER FOR DRINKING

Dr. Foulks Says Typhoid NotCaused by Impure Water Alone

FOOD FINGERS & FLIES

Urges Parents to See That Children Are Given Protection—Free Public Clinics.

Health Officer Foulks says, "While there has been a marked improvement in the clearness of the city water, yet the result of our laboratory tests are such as would hardly warrant me in advising the people to discontinue boiling such water as may be used for drinking purposes. I have no doubt that conditions will continue to improve and that the water will soon be free from any element of danger.

Typhoid fever is always present to a greater or lesser extent in all sections of the country, it is not caused by impure water alone. Infected milk vegetables eaten raw without being carefully washed unwrapped bread and cake that has been frequently handled and left unprotected from flies, are all direct means of communicating this disease. We call it the, "Disease Trinity"—"Food, Fingers, Flies." I strongly urge the people to render themselves immune from typhoid fever by being inoculated with anti-typhoid vaccine. I consider it the duty of all parents to see that their children are given this sure protection. Public clinics are conducted by the Health Department, City Hall, on Mondays, Wednesdays and Fridays from 1 to 5 p. m. This service is free.

TIME TO UNLOAD

The good work of seizing unnecessary large stocks of food is now in active progress, and government officials in charge are casting their lynx eys over the entire country. Yesterday's reports show that many thousands pounds of coffee and tutter, indispensables to human beings in this day of the world, were seized by government agents. So far raids have been confined to the larger cities, but it is whispered the small places are being used as food dumps, it being erroneously supposed the government will make investigations in the larger cities only.

Small cities are often, it is claimed, used as distributing depots, and huge accumulations of food are likely to be found where least expected.

The struggling mass of humanity are confronted by the profiteer and powerful organizations of food dealers, wholesalers and retailers, and the struggle for existence is on.

While pearnalism is not so apparent in the United States as in England, our government is maintained for the protection of the people, not only from foreign oppression, but from enemies in our own land. Such are always in evidence during wars and at the close of conflicts the work of equalizing the affairs of countries which have emerged as victors as well as those vanquished is long and tedious. The work, however, sems to have been taken by the handle this time, and the effects of seizures of food stuffs are apparent. Prices are receding, slowly, of course, but the ebb in the tide is on and this affords the greatest gratification to heads of families through tout the land.

Wages are higher than ever known in our history, but if those compelled to toil for existence are forced to spend all they make in order to procure the actual requirements to sustain life, but little satisfaction can be realized.

The great mass of people are averse to laboring for the benefit of a certain class who would demand all that is earned.

FARMER'S REPLY

A resident of the rural section of Maryland has sent a letter to a Baltimore paper in which he says:

"I am very glad to note that the investigators have found that the farmer is not robbing this country and the whole world as much as had hitherto been thought. As I happen to be one of that lowly, motoring, horse-racing and generally wealthy class, you can scarcely imagine my relief. After having lain awake at night thinking remorsefully of my illegal profits and plain and fancy robbery, I can at last get a good night's rest.

"I own 15 cows and use only the feed necessary to give high production. My cows eat two and quarter tons of mixed grain feed a month all the year round. I will not mention the long feed, for at present they are on pasture and we are using only grain corn, green oats, etc., at very small cost—not more than $10 or $12 a month.

"Last month milk sold for 32 cents a gallon.

"Here are the following highly profitable figures.

"Eight hundred and fifty gallons milk shipped.

"Grain feed, two and a quarter tons at $71, $159.50.

"Milkman, $35 a month and board, $60.

Freight, 11 cents per five gallon can, $18.70.

"Total expense, $238.20.

"Eight hundred and fifty gallons milk at 32 cents, $272.

"Total expense, $238.20.

"Net profit, $33.80.

"These figures stare me in the face and I am consciene-stricekn."

THE WORLD'S CALL FOR WORKERS

"And in every work that he began * * * he did it with all his heart and prospered." (2nd Chronicles, Chapter 31, Verse 21.)

For nearly five years the world was busy destroying the accumulation of centuries, and during that time it had to leave undone the things which ordinarily would have been odne. Now every man on earth must in one way or another bear some of the burden of Germany's war upon civilization and hasten to do the things which need to be done.

For five years dwellings were left unbuilt and existing ones unpainted and unrepaired; food was consumed and destroyed more rapidly than it was produced as 40,000,000 to 50,000,000 men battled for existence or prepared for the great struggle; railroad building ceased, highway construction stopped, streets were repaired, hotels were not constructed to meet the world's increasing travel. The result is there is now an enormous vaccum of empty store shelves, of unbuilt dwellings and hotels and railroads, and of a food supply inadequate to feed up a world of hungry people.

There is only one way to overcome the situation. All the combined power of all the Governments of earth cannot change the inescapable, unalterable facts. But men, individually and collectively, can meet the mighty, problem, we, these by work, hard driving work; by work of brain and brawn and machine power.

Production and more production to the limit of man's ability will insure world prosperity.

Under-production will mean world poverity and suffering.

The responsibility of the soldier on the battlefield to do his utmost was not greater than is the responsibility of every worker now to bring forth the greatest results, whether on teh farm, in the mine, in the factory, in the bank, in the pulpit, in the teacher's room, or at the editorial desk.

Every ounce of increased output by work helps to create wealth and will help the world to carry, and eventually pay its indebtedness. It will help to feed and clothe the world and will lessen the cry of hunger which has fed the fires of Bolshevism in Europe.

The soil, the mine, the factory, the brain, are but plants for the production of things which will add to the world's wealth and help to fill up the world's vacuums.

The work must be done by every man "with all his heart." No other kind of effort is worthy to be called work.

The man who plows, the man who preaches, the man who mines the coal or the ore, the man who runs the machine or he who digs the ditch, if he would do his duty to a suffering world, must do it with all his heart, and feel that every pulse beat which he puts into the work helps to enrich all humanity in its broadest sense.

Any man who halts in his work, who dawdles at it and who is inefficient and only partially productive where he should be efficient and largely productive is a slacker in the worlds great battle against poverty and misey.

To the chosen people of old, God said: "Thou shalt remember the Lord thy God, for it is He that giveth thee power to get wealth." And we should also remember that wealth, individual and national, and for the world, can be created only by work.

Work can solve the problems which the world faces.—(Manufacturers' Record, Baltimore.

Where Can I Find Relief From Itching, Terrifying Eczema?

Question on Lips of Afflicted.

There is a harrassing discomfort caused by Eczema that almost becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because such treatment can only allay the pain temporarily. The disease can only be reached by going deep down to its source, which is in the blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. S., which acts by cleansing the blood. Get a bottle to-day, and you will see results from the right treatment. NOTE TELLS LOVE FOR WIFE.

Ex-Soldier Before Suicide Writes, "It's Hell" With or Without Her

Wilkes-Barre, Pa., Aug. 15. — "Ever since I got back from France she has made my life a hell, it's hell to live with her and worse than hell to be without her. I love her—oh, God, how I love her, but she calls me names and shows me that her love for me is gone after five years of married life. Some one else has taken her affections. I will die with her and ask that we be buried together. I pray God will not stop in my determination."

This is the letter which the police found in the hands of John N. McAvoy, 30 years old, when his body was picked up in his flat at the corner of Lincoln avenue and Northampton street yesterday afternoon.

Beside McAvoy lay his wife, 28 years old, unconscious from five bullet wounds that had been received at close range, mortally wounded with two bullets in her breast and one in the abdomen. Mrs. McAvoy has only a fighting chance for recovery.

McAvoy was drafted in May, 1918, and reached France soon afterward. He had been married four years before, but no exemption was granted. One year of service in France and Germany was his portion of the war and he returned to find employment as a street car conductor with the Wilkes-Barre Railway Company. He and his wife frequently quarreled since his return and when shots were heard in his apartment late yesterday neighbors called the police and the tragedy was disclosed.

CARNEGIE LAID TO REST

Family and Few Friends Follow Body to Sleepy Hollow

Tarrytown, N. Y., Aug. 15.—The body of Andrew Carnegie, steel magnate and philanthropist, was laid to rest at 5:30 o'clock yesterday afternoon on a hillside in historic Sleepy Hollow Cemetery, over looking the Hudson.

Only 21 persons—members of the dead ironmaster's family and a few close friends—accompanied the body to Sleepy Hollow Funeral services were held at Shadowbrook, the Carnegie estate at Lenox, Mass., yesterday morning. Immediately after the services the body was conveyed in an automobile hearse to Hillside, where it was placed in a private car on the New York Central Railroad for White Plains. Thence it was conveyed by automobile to Sleepy Hollow.

Scores of villagers with bared heads lined the entrance to the cemetery as the cortege approached, but the gates had been closed a half hour earlier, and were shut again as soon as the cortege had passed inside and none was permitted to enter.

The brief interment service was conducted by the Rev. Dr. Wiliam P. Merrill, pastor of the Brick Presbyterian Church, New York.

The funeral party arrived at the White Plains station from Lenox at 4:38 o'clock in special Pullman cars. There the flower laden casket was removed to a waiting automobile hearse.

THREE KILLED IN EXPLOSION.

Seven Others Seriously Hurt at Mill Near Suffolk, Va.

Suffolk, Va., Aug. 15.—Three men were killed outright and seven others seriously injured when a boiler at the plant of Caulbourne Brothers' mill, near here, exploded at noon yesterday.

The dead are: Claude Hampton, Roduco, N. C.; Carlton Parker, Burne, N. C., and Rufus Johnson, colored, Savannah, Ga.

THREE CHILDREN KILLED

Army Airplane Crashes Into an Iron Fence at Baseball Field in Baltimore

Baltimore, Aug. 15.—Three children were killed, eight other persons were seriously injured, and scores of other spectators received less serious injuries yesterday after noon when S-C 38121, an army airplane piloted by Lieut. David R. Stinson, crashed into an iron fence at Patterson Park baseball field and crashed through a crowd of several thousand persons. Lieut. Stinson made a most heroic but futile effort to avoid the accident.

Scores of children were hurled down a fifteen foot embankment by the right wing of the aeroplane. Others were mowed down by the left wing of the machine. At least a dozen were caught by the speedily revolving blades of the propeller and were badly injured.

The three children killed were two boys, each about 8 years old, and a girl about 13 years old. They were killed outright by the blades of the propeller.

250 ESCAPE DEATH

Girls Saved by Boiler's Falling Toward Front of the Mill

Scranton, Pa., Aug. 15.—Two hundred and fifty girls employed in the Simpson Silk Mill at South Scranton narrowly escaped death or serious injury yesterday when a mine cave wrecked the building. The fact that a 250 horse power steam boiler tipped to the front instead of to the rear when it was dropped ten feet by the disturbance prevented an explosion heavy loss of life.

The mill was working when the subsidence occurred. Firemen first discovered the building settling and gave the alarm. The employees fled and all escaped injury. The mill was badly damaged and operations suspended.

With indignation meetings being held in different parts of West Scranton every night and residents of the districts damaged by mine caves assuming a threatening attitude following the death of eleven-year-old Robert Warburton in a cave hole Tuesday night, the authorities are viewing the situation with alarm.

A RESOLUTION proposing amendment to section 117 of article 8 of the Constitution of Virginia, and providing for publishing said amendment and certifying the same to the next general assembly.

Resolved by the senate and the house of delegates (a majority of the members elected to each house agreeing thereto), That the following amendment to the Constitution of Virginia be, and the same is hereby, proposed and referred to the general assembly to be chosen at the next general election of senators and members of the house of delegates, for its concurrence, in conformity to the provisions of section one hundred and ninety-six of article fifteen of said Constitution, namely:

Strike out from the Constitution of Virginia section one hundred and seventeen, which is in the words and figures following, to-wit:

Section 117. General laws for the organization and government of cities and towns shall be enacted by the general assembly, and no special act shall be passed in relation thereto, except in the manner provided in article four of this Constitution, and then only by a recorded vote of two-thirds of the members elected to each house; and except also in the case of cities having more than fifty thousand inhabitants, as hereinafter provided. But each of the cities and towns of the State having at the time of the adoption of this amendment a municipal charter may retain the same, except so far as it shall be repealed or amended by the general assembly; provided, that every such charter is hereby amended so as to conform to all the provisions, restrictions, limitations and powers set forth in this article, or otherwise provided in this Constitution.

Notwithstanding, however, anything in this article contained the general assembly may, by general law or by special act (passed as prescribed in article four of this Constitution), depart in any respect (except as otherwise in this section expressly provided) from the form of organization and government prescribed by this article for cities and towns, and may provide, from time to time, for the various cities and towns of the Commonwealth such form or forms of municipal government as the general assembly may deem best; but no form or forms of government authorized by the second paragraph of this section shall become operative except as to such cities or towns as may thereafter adopt the same by a majority vote of its qualified electors at an election to be held as may be prescribed therefor by law. All the limitations on the powers of the councils of cities and towns imposed by this article shall apply in like manner to the principal legislative authority under any form of government which may be authorized hereunder. The term "council" as used in sections one hundred and twenty-five and one hundred and twenty-seven of this Constitution shall be construed to include the body which, under any form of municipal government, shall be vested with the principal legislative authority of such municipality.

The general assembly, for the purpose of this article, may classify cities according to their population, but the maximum population prescribed for any class shall exceed the minimum population for the same class by at least ten thousand. The general assembly, at the request, made in manner which may be prescribed by law, of any city having a population of over fifty thousand inhabitants, may grant a special form of government for such city.

Any laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurer and city sergeants.

And insert in lieu thereof the following:

Sec. 117. (a) General laws for the organization and government of cities and towns shall be enacted by the general assembly, and no special act shall be passed in relation thereto, except in the manner provided in article four of this Constitution, and then only by a recorded vote of two-thirds of the members elected to each house. (b) The general assembly may, by general law or by special act, (passed in the manner provided in article four of this Constitution) provide for the organization and government of cities and towns without regard to, and unaffected by any of the provisions of this article, except those of sections one hundred and twenty-four, one hundred and twenty-five, (except so far as the provisions of section one hundred and twenty-five recognize the office of mayor and the power of veto) one hundred and twenty-six one hundred and twenty-seven and one hundred and twenty-eight of this article and except those mentioned in sub-section (d) of this section. The term "Council" as used in any of said sections shall include the body exercising legislative authority for the city or town, and all ordinances enacted and resolutions adopted by such body shall have the same force and effect for all purposes, as if enacted or adopted in accordance with the provisions of section one hundred and twenty-three of this article. But such organization and government shall apply only to such cities or towns as may thereafter adopt the same by a majority vote of those qualified voters of any such city or town voting in an election to be held for the purpose, as may be provided by law.

(c) The general assembly, at the request of any city or town made in manner provided by law, may grant to it any special form of organization and government authorized by sub-section (b) of this section, and subject to all of the provisions of that sub-section, except that it shall not be necessary for such city or town to thereafter adopt the same.

(d) Any laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurers and city sergeants.

(e) Any form of organization and government authorized by any provision of this section which may have been adopted heretofore by any city or town pursuant to any act of the general assembly enacted before such provision became effective, and which is now in operation, is hereby declared legal and valid ab initio, and shall have the same force and effect as if it had been authorized by this Constitution at the time of its adoption.

FEARFUL ACCIDENT

Motorman Failed to See Approach of Engine Until Too Late

Parkersburg, W .Va., Aug. 15.—Of a party of Sunday school children and their teachers who started out for a day's outing yesterday morning, eleven are dead and several others are dying as th result of a colision between the Monongahela Valley Traction Company special car and a Baltimore and Ohio switch engine here yesterday afternoon. The victims were all from Reno, Ohio.

The special was trailing a regular car, but Motorman Barnes apparently failed to see the approach of the engine toward the crossing in time to avoid a crash. After he set his brakes he leaped to safety. The impact forced a steam pipe from the engine through the wooden car from which scalding steam and water was thrown on the imprisoned occupants.

E. F. Anderson, passerby who witnessed the tragedy, fell dead while attempting to break the car windows to effect the escape of the steam and its scalding victims.

Both Parkersburg hospitals are taxed to capacity, all doctors and even dentists are engaged in caring for the injured, while a general call for nursing assistance is being well responded to.

Paris, Aug. 15.—The Rumanian delegation sent to the Peace Conference yesterday the text of the answer of the Rumanian Government to the notes sent by the Conference. The Supreme Council will meet this afternoon to discuss the Rumanian reply.

The telegram reads:

"Make orders positive to all points, now is the time to act. We cannot much longer delay, and if you refuse to comply, will be compelled to advise Hines and Wilson, if necessary, that you do not belong to the organization. If negotiations are resumed strikers will be deprived of benefits."

LASHED BY GALE

Ocean Piled High Along Waterfront Atlantic City, N. J., Aug. 15.—

The Inlet here to Longport, Absecon Island, bears the marks of one of the heaviest summer northeasters in the memory of the oldest inhabitants.

After nearly 24 hours of gale, raging at a 50 mile gait, piling the ocean high on the beach front and transforming seven miles of meadow back of the big resort into a raging sea, the storm was subsiding yesterday, and thousands are enjoying the spectacle of Neptune's rage from the boardwalk and piers.

The rainfall for the 24 hours, starting at 5:30 Wednesday until the same hour today was 9.68 inches, the heaviest rainfall ever recorded here.

Trains were running as usual yesterday over both the Pennsylvania and Reading main lines, but the West Jersey and Seashore third rail line was out of commission.

Waves, battering the inlet loop of the Atlantic City trolley system and inlet hotels, compelled the abandonment of car service above Rhode Island avenue after 9 p. m.

The high tide on the westerly side of the island flooded scores of boathouse homes at Longport, Margate, Chelsea and the inlet section, and washed boats high upon the marshes. The tent colony in lower Ventnor was practically obliterated after dark.

Five flying boats were wrecked. The gale picked them up as if they were toys and battered them against the boardwalk.

DELAWARE STORM

Wilmington, Del., Aug. 15.—Lashed by a sixty mile gale and pounded by cloudbursts late Wednesday, and Wednesday night, Delaware yesterday resembled a devastated battlefield, trees uprooted by the thousands, the ground in the rural sections covered with half ripe fruit, and the fields of growing crops destoryed. The storm was the worst in the history of the State, the losses totaling millions.

Two lives are known to have been lost in the terrific wind that lashed the waters of the Delaware Bay and river, they being members of a crew on a barge owned by the Maryland Dredging Company, that was lost in the bay.

Tomato growers from one end of the State report that their crops are ruined and the canneries will, in all probability, have to close, throwing thousands out of employment.

NEGRO HOLDS UP WOMAN

Viciously Attacks Victim and Robs Her of $5.

Danville, Va., Aug. 15.—Mrs. C. H. Knowles, a respected resident of this community, living within a mile of the corporate limits, was Wednesday viciously assaulted and robbed of five dollars by an unidentified negro who made his escape. The woman was alone in her house when the engro netered and demanded her money. He attacked her and took a five dollar bill by violence from her person.

When the police arrived they found the woman highly nervous and bruises on her arms showed her efforts to fight off the black. It is believed that he caught a northbound freight train a few minutes after the assault, which took place not far from the railway.

FORD WINS DAMAGES

Mount Clemens, Mich., Aug. 15.—Henry Ford, multi-millionaire automobile manufacturer, won 6 cents damages in his suit for $1,000,000 against the Chicago Tribune for publication of an editorial headed "Ford is an Anarchist."

A jury in Judge James Tucker's court returned that verdict last night after deliberating eleven hours and twenty minutes.

The case against the Solomon News Company, co-defendant in the suit, was dismissed on instructions of Judge Tucker, who held that the news company acted as distributing agents only and circulated the issue of the Tribune containing the objectional editorial without knowledge of its contents.

The editorial upon which Ford based his suit was published in the Tribune June 23, 1916. The editorial attacked Ford's alleged pacifism, stressing his pre-war and anti-preparedness activities and his reported opposition to an American invasion of Mexico.

BLANTON AND HARDY CLASH

Fight on Floor of House Between Texans Narrowly Averted

Washington, Aug. 15.—Members of the House intervened yesterday to prevent a personal collision between Representatives Blanton and Hardy, of Texas, both Democrats. Resenting the charge by Blanton that he was "a mere rubber stamp" in the sense that he always defended the Administration, Hardy rushed at his colleague, but was restrained.

The clash came during debate by Blanton on his resolution calling upon the Secretary of Labor for a report of expenses incurred by the department in connection with John B. Densmbre's investigation of the Mooney case at San Francisco. Blanton had attacked the department and Secretary Wilson, who he said, h. been in the House "hobnobbing v members."

When Hardy took vigorous exception to Blanton's reference to him, Blanton retorted:

"Oh, well, the member is a gray-haired old man and I don't want t be abusive."

Hardy immediately made a rush for Blanton, who disclaimed any attempt to be abusive.

Blanton's resolution finally was adopted, 67 to 14.

RICHMOND THEATRE

"When Doctors Disagree," is the intriguing title of Mabel Normand's new Goldwyn Picture to be seen at the Richmond Theatre today. There is every reason to predict that the vivacious comedienne will strike the high spots of fun and originally in the piece because it is a genuine farce, so well wrought that it will be a surprise if it doesn't find its way to the stage.

INGOMAR THEATRE

An excellent supporting cast appears with Dorothy Gish in "Boots," to be shown at the Ingomar Theatre today. Richard Barthelmess, who will be remembered as having appeared in "The Hope Chest," with with Marguerite Clark has the lead opposite the saucy little star.

Reilly's "Wash Day" will also be shown.

GRAND THEATRE

Priscilla Dean, beautiful Bluebird star, has one of the best roles of her screen career in Daphne Trowbridge, a perverse young woman, in "She Hired a Husband," Bluebird's latest feature, which will be shown at the Grand Theatre tonight. Also Pete Morrison in "Ace High." A real Western drama.

To Our Patrons

Alexandria, Va., June 2, 1919.

In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervision of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Safe Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.
